DETAILED ACTION

Allowable Subject Matter

1. Claims 17-48 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 17, 26, 32, 43, and 44, as well as their respective dependent claims, are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein including modularity. Applicant's entire invention is based on the concept of modularity, a self contained structure with plug in connections. Applicant's invention allows for a simple removal of complex spinning/winding buildups, allowing for switching out without shutting down the entire machine. The closest prior art, DE 3931463, specifically teaches structures which can be switched out, but must depend on a main drive system shared by all structures. Thus, the structures are not modular, and are not taught as such. While they provide the convenience of being able to switch out complex spinning/winding buildups, they require the shutting down of the entire machine, since they depend on the shared drive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shaun R. Hurley whose telephone number is (571) 272-4986. The examiner can normally be reached on Mon - Fri, 6:30 am - 3:00 pm, off second Friday.
